

# NATURAL RESOURCE MODELING

Volume 20

Fall 2007

Number 3

---

## CONTENTS

### *Research Articles*

- Optimal Control of Biological Invasions in Lake Networks  
By Alexei B. Potapov, Mark A. Lewis and  
David C. Finnoff ..... 351
- Royalty Incentives and Gulf of Mexico Oil Production  
By Mitch Kunce ..... 381
- Within-Generational and Diversity-Dependent  
Effects in an Individual-Based Model of  
Predator-Prey Interaction  
By W.J. Chivers, R.D. Herbert and W. Gladstone..... 405
- Human Fertility Decisions and Common Property  
Resources: A Dynamic Analysis  
By Gorazd Ruseski and John Quinn ..... 415
- Modeling the Spatial Distribution of Mineral  
Deposits Using Neural Networks  
By Andrew Skabar ..... 435
- Alternative Methods to Analyze the Rank Ordered Data:  
A Case of Invasive Species Control  
By Krishna P. Paudel, Michael A. Dunn,  
Doleswar Bhandari, Richard P. Vlosky and Kurt M. Guidry ..... 451
- Erratum for "On the Sustainable Program in Solow's Model"  
By Cees Withagen, Geir B. Asheim and  
Wolfgang Buchholz ..... 473
